

AERCOR

*"Networking That Enables
Your Success"*

HELLO FROM AERCOR!

At Aercor, we're all about helping you stay connected with scalable, secure, and cost-effective networking solutions. Whether you're upgrading or expanding your network or even building from scratch, we've got you covered.

An individual (one of many) sharing their experience working with Aercor:

"I have worked with Aercor for 13 years. Aercor is extremely honest and they genuinely care about the success of their Customer and all the people around them. Aercor will fight for what is right. I would strongly recommend Aercor as a great Technology Partner."

SPOTLIGHT: EKAHAU

- **Precision WiFi Design:** Plan your network with predictive modeling before a single access point is installed.
- **Fast & Accurate Site Surveys:** Use the Ekahau Sidekick to capture real-world data and visualize coverage, signal strength, and interference in seconds.
- **Automated Reporting:** Generate detailed reports in just a few clicks — perfect for documentation, compliance, and stakeholder buy-in.
- **Troubleshoot Like a Pro:** Quickly identify issues & fix them fast.

WHY AERCOR?

Our engineering services make networking stress-free:

- WLAN Designs
- Site Surveys
- Health Checks
- Implementation

We create solutions tailored to your needs, with manufacturer-neutral recommendations for optimal results.

Since 2005, we've been leaders in network security and performance optimization with a customer retention rate of more than 80% in a highly competitive market!
