

AERCOR

*"Networking That Enables
Your Success"*

HELLO FROM AERCOR!

At Aercor, we're all about helping you stay connected with scalable, secure, and cost-effective networking solutions. Whether you're upgrading or expanding your network or even building from scratch, we've got you covered.

A customer shares their experience working with Aercor:

"I've been doing business with Aercor since 2013. From large projects to last minute emergency needs, They've been an asset to have and always the first I turn to when we have wireless needs. Aercor will make sure that they fully understand the scope of what we need and then promptly works to come up with a solution for our needs - to which they've delivered every time more than satisfactorily."

SPOTLIGHT: MSP

- **Predictable costs:** Fixed monthly pricing replaces surprise IT expenses and makes budgeting easier.
- **24/7 monitoring & faster response:** Proactive support reduces downtime before issues impact the business.
- **Access to expert talent:** A full team of specialists without the cost of hiring and training in-house.
- **Scalable & secure IT:** Services grow with your business while keeping systems updated and protected. total cost of ownership.
